KOSHER CERTIFICATION

To Whom It May Concern:

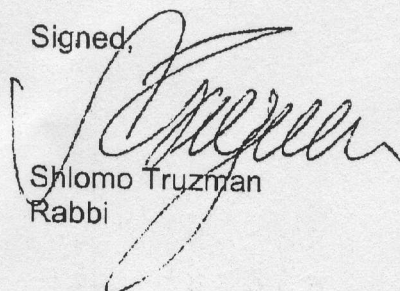

This kosher certificate is given to Moores' Flour Mill, Located at 1605 Shasta St., Redding, CA 96001. This plant is a duplicate of a family plant located in Portland, Oregon. They both process the identical products using the identical ingredients. I have personally examined every item and ingredient that they use in their process, and they do not use any chemicals, additives or preservatives of any kind. Theirs is a pure natural food company. All of their products are Kosher and may be used without question.

Other than the natural nuts and grains, all of the ingredients are certified by reliable authorities before reaching their plant. Hence, there is no product that cannot be used in a Kosher home.

I have on file a complete listing of all the products and their ingredients. Upon request, the company can make this list available.

This certification is valid May 1, 2008 to May 1, 2009.

Signed,

Shlomo Truzman
Rabbi
